WITH VITAFIT

"Daily Nutrition that fits your lifestyle,
a Daily Plan that fits your life."

The current economy has nearly everyone watching their finances. For this reason, it's never been a better time to start a profitable home business. **Think about the difference \$500 a month could make for you.**

- ✓ **Get Out of Debt** – The average family owes \$8,400 in credit card debt at 18.9%. Make a 3% minimum payment; it will take 18 years, 2 months to pay off the credit card. If they add \$500/month to their 3% payment, they will now pay the entire debt off in 1 year and 1 month and save \$7,536 in interest. That same principle applied over and over will get a family out of debt.
- ✓ **Save It** - In 2005 US savings went negative for the first time since the depression. Most families are now spending more than they earn. If you save \$500 a month for 18 years at 6.5% interest, you'll save over \$200,000.
- ✓ **Buy a New Car** - \$500 a month will buy a NICE car, or even better, add \$500 to your current payment and you can own the car you drive.
- ✓ **Pay for Regular Expenses** - Purchase gasoline, groceries, and utilities, make unexpected repairs or take care of "out of the blue expenses" with an extra \$500 a month. Think of the peace of mind you will have by being prepared.
- ✓ **Give It Away** – Use your \$500 a month to take care of orphans, fund an animal shelter, send new books to an under-funded library or send a deserving student to a private school or university or give extra to your place of worship. Your \$500 a month could change the entire world for someone else.
